Requirements

Your project **must** meet the following requirements:

🔗 Deployment Requirements

- [ ] Hosted and deployed on GitHub Pages, not Github Enterprise.

Version Control Requirements

- [ ] Sharing your work through a git repository hosted on Github.
- [ ] Making frequent, cohesive commits dating back to the **first day** of the project week.

Documentation Requirements

- [ ] Pin your repository on GitHub as a Popular Repository
- [ ] Complete the repository `Description` field and `Website` field with a meaningful sentence description of the application and link to the live URL
